

Safety Data Sheet (SDS)

Cedar Leaf

1. Identification

Product identifier: Cedar Leaf

Other means of identification: Essential oil of Thuja Occidentalis

Recommended use and restrictions on use: Fragrance, Domestic and Industrial

Initial supplier identifier: BoreA (9302-0469 Quebec Inc.)
3177 Beausejour
Boisbriand, Quebec
Canada, J7H 1A4
Phone: +1-514-910-1812
Email: info@bore-a.com

Emergency telephone number (hours of operation): 1 (514) 910-1812 (8:00 to 17:00 East)

2. Hazard Identification

GHS Classification: FLAMMABLE LIQUID – Category 3
DERMAL ACUTE TOXICITY – Category 5
ORAL ACUTE TOXICITY – Category 4
SKIN IRRITATION – Category 2

GHS information elements

Hazard pictogram(s):

Signal word: Warning

Hazard statements: H226 – Flammable liquid and vapour
H302 – Harmful if swallowed.
H313 – May be harmful in contact with skin.
H315 – Causes skin irritation.

Precautionary statements

Prevention: P210 – Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.
No smoking.

Safety Data Sheet (SDS)

Cedar Leaf

P233 – Keep container tightly closed.
P264 – Wash hands thoroughly after handling
P280 – Wear protective gloves. Wear eye protection/face protection.

Response:

P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing.
Rinse skin with water or shower.
P305 + P351 + P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P301 + P310 – IF SWALLOWED: Immediately call a POISON CENTER or a doctor.
P331 – Do NOT induce vomiting.
P337 + P313 – If eye irritation persists: Get medical advice/attention.
P332 + P313 – If skin irritation occurs: Get medical advice/attention.

Storage:

P405 – Store locked up.

Disposal:

P501 – Dispose of contents and container in accordance with local regulations.

Other known hazards:

None known.

3. Composition/Information on ingredients

Substance or mixture:

Substance

Common name and synonyms:

Cedar Leaf, white cedar essential oil
Essential oil of Thuja occidentalis

Ingredient	CAS number	Concentration
Cedar Leaf, Thuja occidentalis, ext.	8007-20-3	≤ 100 %

Within the current knowledge of the supplier and in the applicable concentration, no additional ingredient present is classified as hazardous to health or the environment and therefore do not identification in this section.

4. First-aid measures

Description of necessary first-aid measures

Inhalation:

Remove the patient to open air, far from the contaminated premises; if respiration stops or is difficult, give an artificial respiration adopting the proper measure for the helper.

Safety Data Sheet (SDS)

Cedar Leaf

	Seek medical advice.
Ingestion:	Rinse mouth with water. Do not induce vomiting before consulting a doctor.
Skin contact:	Wash with soap and plenty of water. Seek medical advice.
Eye contact:	Wash with plenty of water.
Most important symptoms and effects, whether acute or delayed	
Inhalation:	May slightly irritate the respiratory tract. May be harmful if inhaled.
Ingestion:	Ingestion may be harmful. May be harmful if swallowed and enter airways.
Skin contact:	May irritate skin. May be harmful if absorbed through skin.
Eye contact:	May irritate eyes.
Indication of immediate medical attention and special treatment needed, if necessary	
Notes to physician:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments:	No specific treatment.

5. Fire-fighting measures

Suitable extinguishing media:	Use dry chemical, CO ₂ , water spray (fog) or foam.
Unsuitable extinguishing media:	Do not use water jet or water-based fire extinguishers.
Specific hazards arising from the hazardous product:	In the event of thermal decomposition or fire, vapours potentially dangerous to health may be released.
Hazardous combustion products :	Carbon oxides.
Special protective equipment and precautions for fire-fighters:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Move containers from fire area if this can be done without risk. Use water spray to keep fire exposed containers cool.

Safety Data Sheet (SDS)

Cedar Leaf

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Restrict access to area until completion of cleanup. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation.

For emergency responders: Wear adequate personal protective equipment.

Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Methods and materials for containment and cleaning up

Spill: Limit the spreading of the spillage with non-combustible absorbent material (sand, earth etc). Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind.

7. Handling and storage

Precautions for safe handling: Use appropriate personal protective equipment. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Do not smoke while handling. Keep containers closed when not used.

Advice on general hygiene: Eating, drinking and smoking in working areas should be prohibited. Wash hands with soap and water before meals and at the end of the work shift. Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage, including any incompatibilities: Store in a well ventilated place. Keep far away from sources of heat, naked flames and sparks and other sources of ignition.

8. Exposure controls/Personal protection

Control parameters: Not available

Appropriate engineering controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Individual protection measures: In order to minimize exposure as far as possible, it is strongly recommended to use adequate individual protective measures,

Safety Data Sheet (SDS)

Cedar Leaf

such as: masks suitable for the product, goggles, gloves and overall.

9. Physical and chemical properties

Appearance

Physical state: Liquid
Colour: Clear to pale yellow

Odour: Cedar, woody, thujonic

Odour threshold: Not available

pH: Not available

Melting point: Not available

Freezing point: Not available

Initial boiling point and boiling range: Not available

Flash point: 57 °C c.c.

Evaporation rate: Not available

Upper and lower flammability or explosive limits: Not available

Vapour pressure: Not available

Vapour density: Not available

Relative density: 0.90 – 0.91 g/mL at 20°C

Solubility: Insoluble

Partition coefficient —

n-octanol/water: Not available

Auto-ignition temperature: Not available

Decomposition temperature: Not available

Viscosity: Not available

10. Stability and reactivity

Reactivity: No specific test data related to reactivity available for this product

Chemical stability: The product is stable

Possibility of hazardous reactions: Under normal conditions of use and storage, hazardous reactions will not occur

Conditions to avoid: Avoid heat and all possible sources of ignition (spark or flame).

Safety Data Sheet (SDS)

Cedar Leaf

Incompatible materials: Strong oxidizing materials.

Hazardous decomposition products: Under normal conditions of use and storage, hazardous decomposition products should not be produced.

11. Toxicological information

Acute toxicity:

LD50 Oral (rat) > 5000 mg/kg

Information on the likely routes of exposure: Dermal contact. Eye contact. Inhalation. Ingestion.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation: May slightly irritate the respiratory tract. May be harmful if inhaled.

Ingestion: Ingestion may be harmful. May be harmful if swallowed and enter airways.

Skin contact: May irritate skin. May be harmful if absorbed through skin.

Eye contact: May irritate eyes.

Delayed and immediate effects, and chronic effects from short-term and long-term exposure:
No known significant effects or critical hazards.

Numerical measures of toxicity:

There is no data available

12. Ecological information

Ecotoxicity

Product/Ingredient name: Not applicable

Toxicity: No data available

Persistence and degradability: No data available

Bioaccumulative potential: No data available

Mobility in soil: No data available

Other adverse effects: No data available

Safety Data Sheet (SDS)

Cedar Leaf

13. Disposal considerations

Disposal methods: Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations. Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

Contaminated packaging: Contaminated packaging must be recovered or disposed of in compliance with Federal and Provincial waste management regulations.

14. Transport information

UN number: UN1169
Proper shipping name: EXTRACTS, AROMATIC, LIQUID
Hazard class: 3
Packing group: III
Environmental hazard: Not applicable
Special precautions: Not applicable

15. Regulatory information

WHMIS 1988 Classification: B3 – Combustible liquids
D2B - Materials causing other toxic effects

16. Other information

SDS information
Version: 1
Date (dd/mm/yyyy): 21/07/2016

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product. This document must not be regarded as a guarantee on any specific product property. The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.
